What Will Fit?

BY GRACE LIN

Mathical selects, promotes, and distributes math-inspiring fiction and nonfiction for children ages 2-18. Proposed titles are submitted annually by publishers and the public. Many hands help select the books, including language arts and math teachers, librarians, early childhood experts, and more.

We partner with organizations in the education, social services, and philanthropy sectors to serve children in need. Through our book donation program, Mathical distributes thousands of books annually nationwide, including to Title I schools and libraries.

To get the Mathical List, and learn more, see

mathicalbooks.org

Reading guides are available for many titles, especially for younger readers.
